This project comprises two parts. The first part is a group project for groups as identified below. The second part is analysis of data, and this part is to be attempted individually. The first part is to be assessed by an in class group presentation and a set of summary notes to be distributed to the class. The second part is to be submitted as a report.

Due Date for Project Report: Lecture at 11 am on Thursday 22 October

Marks for the project are as follows.

1. Group presentation — 25%.
2. Summary notes — 25%.
3. Project report — 50%.

This document gives references to the articles for the presentation. A separate document has been distributed earlier with information on the data and associated report.

Groups should prepare a talk on the following articles. The talk should be no longer than 12 minutes, with three minutes for questions.

5. Alexandra Pritoula and Tonje Galta. Chapters 4 and Monday 28 September 5 from The seven tools of total quality control (Business library Call No. 658.5620994 1989 SEV) by J. McConnell. Tuesday 6 October.
8. Callum Mcintyre and Issa Karmout. Chapters 1 and 8 from The seven tools of total quality control (Business library Call No. 658.5620994 1989 SEV) by J. McConnell. Thursday 8 October.
